DIVINE DECAF

LATIN AMERICA

A coffee with all the flavour but without the caffeine! A medium bodied coffee with notes of roasted nut and malty bran flakes that develop into a milk chocolate brew once milk has been added.

100% Fairtrade Arabica Decaf

Latin America is the largest producing coffee region in the world with a diverse range of micro-climates and topography ranging from the mountainous highlands of Mexico in the north down to the southern plateau's of Brazil in the south.

Our Fairtrade Divine Decaf is 100% chemical free - our coffee beans are decaffeinated using the supercritical fluid extraction method where the coffee beans are pressurised using CO₂ to extract the caffeine.

What is Fairtrade?

Fairtrade is about better prices, decent working conditions, local sustainability and fair terms of trade for farmers and workers in the developing world. For more information visit info.fairtrade.net/sourcing
