Honduras Coctecal Cooperative

The cooperative was founded in 2006; it is primarily made up of members from the Lempira Township. Lempira is situated in the hillside which is fed by natural springs in the area. This is a subsistent farming area, with coffee being intercropped with mangoes, rice and black beans. The cooperative continues to grow in membership and improve its coffee output.

Ethical Coffee Beans

Our beans are amongst the freshest on the market, being roasted to stock in the UK as opposed to importing roasted beans on a much longer timescale. Our Neotech roaster is more environmentally friendly, energy-efficient and better than conventional drum roasters in that it can roast in specific small batches with unique roasting profiles that are able to compensate product variations and unfold the unique flavour of each individual coffee blend whilst reducing wasted heat by recirculating in the fully enclosed system.
