

VITRO S1

Taking care of every last detail

VITRO S1 is the perfect combination of compact design, functionality and top-quality components.

With its compact design, it fits into any coffee area in small offices, hotels and convenience stores with a consumption of up to 60 cups per day. Designed to provide the best coffee experience from the first to the last cup.

Easy-access hoppers

A 1.2 kg coffee bean hopper and two hoppers for chocolate, milk powder or other soluble ingredients. Product can be directly and easily loaded from the top without opening the door.

Precise grind adjustment

Precise and consistent coffee grinding with micrometric adjustment, durable flat burrs, a powerful motor, sensor protection, and time-based dosing.

Easy emptying and cleaning of waste

The waste drawer has a capacity of up to 50 coffees and the liquid tray has a capacity of 1.2 litres. Its design allows for easy emptying and cleaning in the dishwasher.

Easy to use selection panel

The 8 selection touch panel offers a wide range of high-quality coffees.

Optional

Main water connection

For greater flexibility, the machine can be connected directly to the mains instead of using the built-in 4L water tank—offering increased autonomy and convenience in suitable locations.

Accessories adapted to your business model

With a wide range of accessories, the VITRO S1 can be adapted to suit any business model, with different payment modules and stands available to complement the machine.

Large volume brewing unit

Depending on the customer's preferences and requirements, it is possible to equip the machine with the AZKV20 brewing unit for larger beverage volumes.

Lockable hoppers

The hoppers can be equipped with an additional locking device to secure access to the containers and prevent unauthorised opening.
